

TECHNICAL APPROVER DESIGNATION FORM

Technical Approvers are those individuals authorized access to the Secure Virtual Private Network (SSL-VPN) Request Application for the purpose of requesting and processing an organization's requests for SSL-VPN access by authorized users. The SSL-VPN Technical Approver can only approve and process requests for applications and resources owned by the designated organization. The organization's primary or alternate Information Security Officer (ISO) is required to certify that SSL-VPN end-users have signed the appropriate Acceptable Use Policy, Non-disclosure statements, Confidentiality Agreements, and that the SSL-VPN user agrees to comply with the state VPN policy documents. Furthermore by receiving access the said end-user is acknowledging their responsibility of accessing and utilizing systems connected or owned by the State of Delaware.
